RifeMedic 8 Quick Start Illustration:

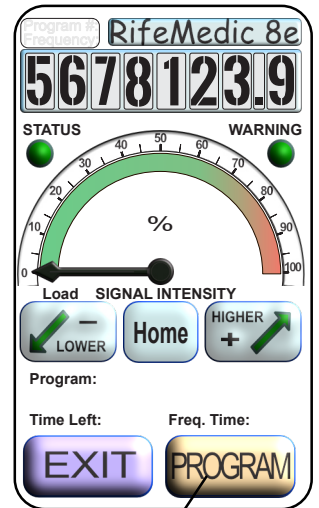

1 Switch on the device and Press on the screen to start

2 Press on AGREE

3 Press SELECT

4 Press PROGRAM

The example shows the steps taken when you decided to treat yourself with "Abscesses".

Step 3's screen shows "Rife" on top as the selection when SELECT is tapped.

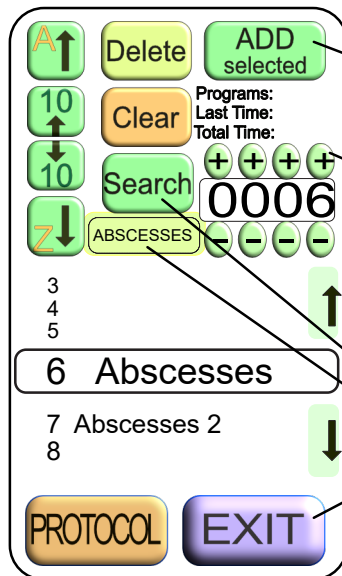

Step 4 shows the Rife screen before a program is selected.

Step 5 and 6 indicate one way to choose a program by changing the program number according to the numbers in the Rife Programs List.

You can also use the up and down keys or Search for a word. After you entered a word, the first find will be displayed but the key below Search will then be the find next key.

Hold the connected electrodes in both hands, tap RUN and then adjust the signal intensity. Start for example at 30% by tapping on "30" on the meter scale, then adjust higher until the signal feels pleasant.

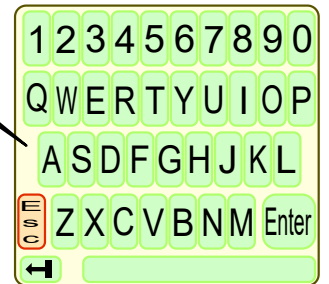

Also see "Rife Principles" in the manual.

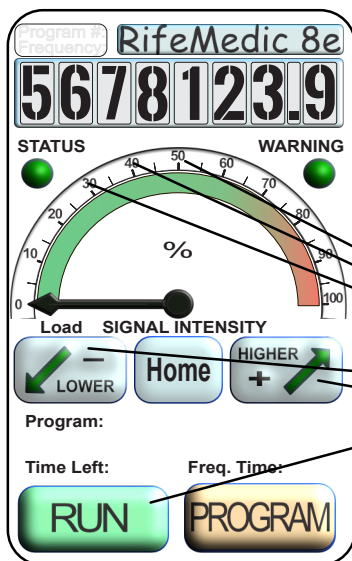

5 Push + until the number is 6

6 Press ADD

7 Press EXIT

This is the Search keyboard to enter a word for example ABSCESSSES. The word will then appear on the Repeat Search key just below the Search key.

8 Press RUN

9 Tap on the screen to adjust the signal intensity Or press the Lower and Higher buttons

10 Then press PAUSE and then STOP to quit.

RifeMedic Usage:

The following procedure illustrates how to start a RifeMedic session:

1. Choose what you need being treated. You require a symptom, a condition, self-diagnosis, practitioner's diagnosis or your treatment intention. Exaples are:

Symptom:	Stomach aches	- treat Abdominal Inflammation
Condition:	Spider byte	- treat Brown Spider byte, Insect bytes
Self-diagnosis:	Flue	- treat Influenza programs
Medical diagnosis:	Streptococcus Pneumonia	- treat Streptococcus Pneumonia
Intention treatment:	Need to detox my body	- treat Detox throughout the body
2. Look up the program or programs on your Rifemedic device. Older devices require one-by-one treatment and newer devices like RifeMedic 4,5,6,7 and 8 can load a selection of programs to be treated. Add the programs to the treatment list. For example:
On the RifeMedic 8, select Programs, then search for "Detox thr" and Add the program "Detox throughout the body". You may also look up the program number in your programs list and change the number on the screen, the press Load to load it.
Exit the programs screen.
3. Plug the supplied cables' one end into the hand electrodes. Plug the cables' other ends into the white connections of the device. Hold both electrodes, each in one hand.
4. Press "Run" on the Rifemedic 8 screen. Wait for the first program frequency to set up.
5. Adjust the signal intensity. Tap on 50% of the signal intensity scale and wait for the intensity needle to move up to 50%. If the signal sensation is intense, turn down the intensity with the (-) function or tap on 40% or 30% on the signal intensity scale. If the signal sensation feels weak, turn up the signal intensity with the (+) function or tap on 60% of the signal intensity scale. Stop adjusting the signal intensity when the signal feels comfortable.
6. Hold the electrodes for the treatment duration. The total duration time is displayed on the screen as well as each frequency's time as it progresses through the loaded program.
7. When the device Beeps, it indicates that it is about to change the program's frequency. The signal intensity will turn down and back up with the new frequency loaded. Relax the grip off your hands on the electrodes and grip tighter when the intensity is at the set point. If the signal intensity feels too intense, adjust the signal intensity lower. However, if the signal intensity feels weaker, do not adjust the signal intensity higher. The reason being that as frequencies go higher, the body's ability to feel the sensation is less.

RifeMedic Principles:

by Dr. Pieter van Wyk www.rifemedic.co.za

1. This document refers to Rifemedic devices and may not be appropriate for, or associated with other devices.
2. Confirm that you agree with the terms, conditions and indemnity of RifeMedic devices before you use it.
3. Rifemedic devices are not medical devices but are alternative health and healing support devices and modalities. Rife therapy does not replace any medicine, nor diagnose and makes no claims of healing.
4. People with the following conditions or risks may not use a RifeMedic device: Pregnancy, heat risk of any kind, epilepsy, severe and acute conditions or risks that require medical support, people requiring hospitalization, people using dangerous, toxic, high risk medicines.
5. People who have received the graphine dioxide bio-weapon covid vaccinations should consider detoxifying the graphine dioxide out of their body first before using a Rifemedic or and other bio-resonance device.
6. Rife therapy, bio-resonance, and frequency therapy are the same thing.
7. Do not use your rife machine during lightning storms.
8. Place your device on a hard surface with good ventilation.
9. In any case of emergency, switch off the device or remove the electrode cables form the device.
10. Do not pull on the electrode wires. Use the banana plugs to pull or plug the wires in or out.
11. Rife therapy is applied by choosing an appropriate program from a list; starting / running the program; holding the two electrodes while turning higher the frequency signal intensity until the sensation it produces feels comfortable.
12. Do not turn the intensity as high as possible - the sensation has to feel comfortable so that resonance / vibration has its effect.
13. Relax your hand grip on the electrodes when the device switches between frequencies so that you may feel if the new frequency intensity is not too high. If it feels too intense, turn down the intensity.
14. Rifemedic devices have 2 leds (lights) connected to the output electrodes. These leds light up and become brighter as the device's intensity is turned up. Check that they are on during an application.
15. A good start level for all programs are about 50%. Hold the electrodes in both hands when the intensity is adjusted.
16. Turn the device's intensity down to at least 40% when electrodes are handed over to someone else.
17. Turn the device's intensity down to 40% or lower when you pause the device so that it feels comfortable when you continue the program.
18. Choose programs associated with a condition, its cause, its effects and boosting immunity or the associated body system.
19. Use your rife machine as one part of a holistic approach.

20. Very low frequencies will pull muscles.
21. Low frequencies are often associated with detox.
22. Frequencies below 10 000 hertz can be felt well during therapy.
23. The body can not feel very high frequencies - do not adjust your device higher when it runs high frequencies.
24. A treatment time norm to consider is about an hour at a time, or two hour sessions a day with about 6 hours' rest in-between, or longer times may be used if the person being treated are well enough to handle that.
25. Be careful when stimulating glands and organs. You have to know what you are doing, considering many factors.
26. Be careful when medicine has been taken as bio-resonance may enhance the effects of the medicine or it may detoxify the medicine from the body.
27. Apply Rife therapy hours after medicine has been taken.
28. Do not apply Rife therapy at night while you are sleeping.
29. You may apply Rife therapy via a electro-magnetic blanket at night while you are sleeping.
30. Rife application via an electro-magnetic blanket is appropriate to any one but especially for treating animals, plants, babies, children and older people.
31. In case of electro-magnetic blanket application, load each program more than once as the effects of the electro-magnetic blanket is much weaker than the electrode application. Hold the blanket as close as possible to the body or affected area for the best exposure.
32. A better effect may be obtained when conditions of the lower body are treated via the feet, using foot plates and for upper body conditions, treated via the hands using the hand electrodes.
33. The intensity when treating via the feet normally requires higher intensity adjustment as the body's electrical resistance is then higher.
34. Programs are compiled with different frequencies, each normally running for 3 minutes. Short programs have specific and focused purpose. Long programs have a variety of frequencies, chosen to have a broader effect.
35. When programs have the same name, those could or should all be used, making turns from time to time.
36. Good comprehensive programs include "General Comprehensive", "General Antiseptic".
37. Infections general, secondary, tertiary are good infection healing programs.
38. You can treat yourself preventative for example, when you feel that your immunity may be compromised due to emotional issues, body weaknesses, diseases in the air, poor diet, and body weakness, you may stimulate immunity, stimulate circulation or treat for infections, or treat for influenza (flue), etc.
39. One observation of using a Rifemedic device and how potent its bio-resonance is: if you have a broken tooth or a loose tooth busy forming an infection, ti will come loose.

40. It is normally fine to treat people with implantations but always observe that it does not irritate the area too much. Rife therapy are effective for infections caused by implantations.
41. Apply Rife therapy only a few days after surgery - allowing the body to heal naturally. Do not over-stimulate healing, for example with the "Healing and regeneration" programs as too rapid healing may form weakened or abnormal bone or tissue or skin structures.
42. Examine the variety of programs offered as it covers just about any health and healing facet of the body.
43. Consider to utilise herbal supplements, vitamin and mineral supplements, ozone therapy, colour therapy, massage therapy, and a variety of other modalities in a holistic approach.
44. Consider that the entire international medical association and their workers have knowingly and unknowingly engaged in a full scale bio-weapon plan to eliminate (kill) as many people possible. We experience those effects every day by millions of people already dead, many dying of sudden advanced phase cancers, babies born with serious conditions, young people's sudden death and chronic diseased people in serious trouble. Think alternative and do not trust any medical intervention as far as possible. "They" are coming for each and every one.
45. Often test that your electrode cables are in a good condition. If the banana plugs seat loosely in the machine sockets, then try to bend the banana plug springs out for a tighter fit or replace them with new ones. Test your RifeMedic cables by connecting the cables and running any program like Abscesses, turn the output intensity up until the Output Leds just come on, then briefly place the electrodes together, touching each other (Shorting). Check that the Output Leds go off during the Shorted time. This means that both wires are functional and conducting. If the Output Leds do not go off then you have to fix up your cables.
46. Fixing up your cables is easy if you have a small screw driver and a wire stripping pliers or side cutter: For each banana plug, push the rubber hood back towards the wire to uncover the banana plug inner piece. Untie the cable via the small side screw, ensuring not to loose the screw. Pull the wire out. Cut off 3 cm of the wire. Strip the wire isolation 1 cm to uncover the inner screen and wire. Also strip the inner wire and twist all the wires together, bend it double and place it back into the banana plug, and tie the screw again, push back the banana rubber hood. Repeat this for all banana plugs.
47. Like with medicine, herbal medicine, supplements and Rife Therapy, one may feel worse before conditions become better. However, use your own discretion to determine where to stop taking medicine or stop the Rife Therapy. It may be possible that a symptom of a condition is due to an unknown factor. Use referred pain as an example where lower back pain may be the cause of kidney infection.
48. RifeMedic therapy is an excellent motivation for people to learn about their body, anatomy, physiology and natural health supplements.
49. Be careful when taking medicine and applying Rife Therapy. Wait two hours after taking any form of medication to start Rife Therapy as Rife Therapy may enhance the actions of the medicine - this is not the desired effect of the medicine.
50. If at any time undesired effects are obtained, especially acute effects, stop the session and obtain medical support.
51. Chronic conditions have normally developed over decades, therefore expect that treatment for such condition may take long, and timing will also depend on other therapy, mental attitude, and emotional conditions.

52. Rife Therapy as a vibrational therapy can be applied together with massage therapy, certain detox therapies, emotional therapy and more.

53. Colour Therapy is intended to be applied to the skin. Do not look into the bright led light as it may cause harm to eyes. A colour therapy course should be undertaken to learn about all facets of colour therapy.

54. In order to apply the Weak Pulse Electro-magnetic Therapy, a pulse electro-magnetic therapy course should be undertaken to learn about all facets of the therapy.

55. Radionics and Water-Imprinting

Application of RifeMedic Radionics for Distance Healing:

The application of forced radionics with a rife machine was developed by Dr. Pieter van Wyk in the early 2000's. The phenomena of Radionics was discovered by Dr. Albert Abrams. He discovered that treating someone's DNA results in the person actually receiving the effects of the therapy, no matter where the person is. As the word Radionics suggests, with the RifeMedic device, Dr. Van Wyk uses the DNA's carrier frequency to transmit the RifeMedic modulation frequency so that only the person with the same DNA frequency will be the tuned-in receiver of the therapy frequency.

Obtain a client's DNA in the form of hair or a small blood sample on a microscope plate.

Optionally, obtain the client's face photo as photonic radiated information or signature.

Set up the RifeMedic device with the intended programs or radionics protocol and Run the selection of programs.

Turn up the RifeMedic signal intensity to only 10%.

Enter the Setup function and switch on the frequency transducer.

If required, also set up a Colour function.

Exit the Setup function.

Press on the "Lock Screen" label on the screen.

Turn the RifeMedic device upside down.

Place the photo over the golden transducer and light source.

Place the hair or other DNA material on top of the photo.

Let the person know you are treating him or her.

Placement of a Photo and Hair

Some Rife Machine Notes and guides:

One of two treatments per day for more or less one hour at a time, suits most people best.

Over-stimulation especially on inflamed tissue, can increase sensitivity or cause damage.

Be careful and sensible when stimulating organs, glands and hormonal functions.

Treat the cause and consequence of your symptoms as well:

For Example "Candida problems", determine the order of the factors applicable:

A) Candida overgrowth B) Tissue damage, pain, discomfort C) Immunity D) Compromised organs' and glands' functions E) Detoxification F) Body physiology balance.

Very low and very high frequencies are weakly felt - do not adjust the intensity too high!

Frequencies above 20 Hz and below 20 kHz are well felt.

The unit beeps when it does a frequency change. Relax your grip and feel if the newly loaded frequency's intensity is not too harsh. If so, adjust the intensity to a comfortable level and keep the setting there for the entire program.

Application via the feet, requires a higher intensity because the path resistance is higher.

Treat through hands for upper body conditions, treat through feet for lower body conditions, although the entire body resonates with either application.

To test if your wires are good, short the two hand electrodes briefly and see that the Load indicator on the intensity meter jumps to a high load indication. In this case, your cables are good. If no change is observed, one or both of the wires may be damaged and require repair or replacement.

Repeat programs to your own discretion for as many days as may be necessary. People do not heal the same and do not react the same to therapy.

Do not use your rife machine during thunder storms.

Apply electrodes to hands and feet only. The epidermis elsewhere has a dead skin layer that conducts weakly but will start conducting on a small surface and burn you due to the small conducting surface.

Discretion and Considerations to take into account, are a person's: Age, Gender, Race, Pregnancy, Menstrual cycle, Weight, Blood group, Blood viscosity, Hydration status, pH level, Gland problems, Organ problems, Body systems problems, Brain problems, Nervous system problems, Back problems, Body weaknesses, Accidents history, Disease history, Implants, Bad habits, Medication, Other applied therapies, Vaccination history as a bad factor, Chronic symptoms and factors, Acute symptoms and factors, De-worming and anti-parasite processes, Detoxification processes, Supplementation application, Dietary factors, Food quality, Environmental sensitivities, Allergies, Traumas, Emotional factors, Relationships factors, Negative stresses, Financial stresses, Life expectancy, Education, and there are more... And that is why the question of how to treat a condition for a person you do not properly know, is an unfair one.

Who should not or can not be treated with a Rife machine:

Pregnant people, epileptic people, people with heart failure risk, people wearing a life-support device like a heart pace maker, people with acute or critical or life support care conditions.

About Graphine Dioxide and Graphine Hydroxide obtained from Covid vaccinations:

Graphine nano-particles are extremely sharp structures and it may cause damage to tissue and cells when bio-resonance is applied. It is suggested to first detoxify the body thoroughly and use other modalities like ozone therapy to support healing from these particles.

Disclaimer and Conditions of use:

This device is not intended to diagnose a disease or replace any other physician's medication or therapy. The use and application of this and any other bio-resonance device, is entirely on your own discretion and risk. You take full responsibility for any matter, good and bad, arising from this application and it is no one else's task or responsibility to inform or teach or educate or prescribe any matter related in any way to you. Also take into account the Conditions of Use and Disclaimers here and as provided on the device.

RifeMedic devices are designed, manufactured and tested to comply with type BF requirements. See www.rifemedic.co.za for more information.

Credits: Dr Royal Ramond Rife, Rife forums like www.rife.de, Dr. Nenah Sylver, frequency research centres, bio-resonance researchers and other bio-resonator manufacturers, many many alternative health professionals and contributors, rife machine users all over the world! **RifeMedic devices are being manufactured for more than 20 years as leading functional and creativity quality devices.**

A well designed bio-resonator will stimulate every facet of health and healing:

- Promoting circulation.
- Balancing body pH.
- Balancing Oxygen and CO2 relationship.
- Promote body systems detoxification.
- Help Feeding Cells with nutrients.
- Help Detoxifying cells.
- Energising cells with electric potential.
- Stimulating Glands and their functions.
- Stimulating Organs and their functions.
- Stimulating healing of fractures and wounds.
- Breaking down protein structures of poisons.
- Breaking down viral protein structures to make them dysfunctional.
- Breaking up bacteria.
- Killing bad fungus.
- Killing parasites, larva and eggs.
- Drain toxins from infections.
- Relieves pain.
- Improves energy.

Electro-magnetic blanket use: (EM blanket) This product is purchased optionally.

Instead of using electrodes, the EM blanket can be used as a hands-free application.

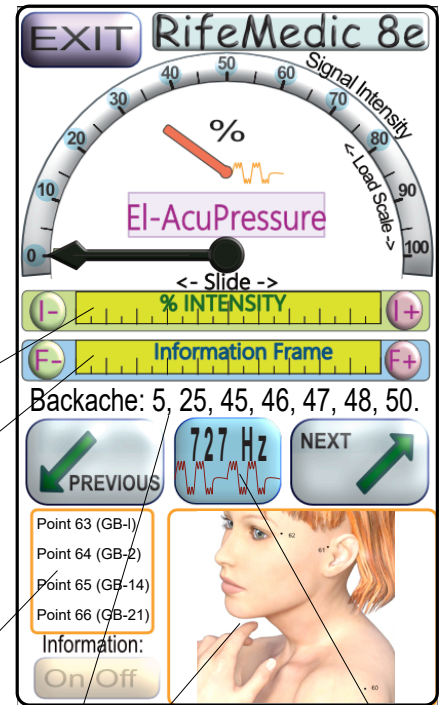

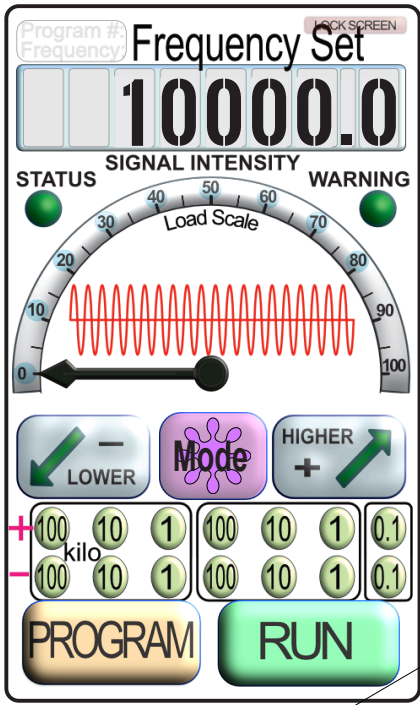

Here are some guidelines for using the EM blanket:

1. Connect the blanket to the white terminal points on the RifeMedic.
2. Select and run a program and adjust the intensity on 60 to 70%.
3. You will feel no sensation from the electro magnetic field radiated by the blanket.
4. The effect is much less to that of the electrodes. Consider loading each program a few times.
5. Keep the blanket in close proximity to the area focused on.
6. You may sit on, lie on, or hold the blanket into position.
7. It may be handy to use for children, animals, older people, and sensitive people.
8. Animals may be much more sensitive to the em blanket fields.
9. The EM blanket will not become warm.
10. In order to test if the EM blanket works, run a program on the rifemedic, turn up the signal intensity until the output leds (lights) just come on, then plug in the EM blanket. If the leds go dead or dim, then the blanket is working. Turning up the signal intensity should light up the outputs leds again.
11. Please do not make anything wet.
12. The electro magnetic field radiates in all directions from the blanket but may form peaks 90 degrees or vertical to the flat sides (from the centres of the blanket, in both directions).
13. Before replacing electrodes of any kind, first stop any running program. Restart and adjust the intensity from zero.
14. The above points can be considered depending on each unique situation and condition.

I have received many reports over the years from persons who applied the EM blanket to children and animals. It seems that some animals are sensitive enough to the fields for you to see a reaction from the animal when brought in close proximity to the EM blanket.

Stephani told me her dog had a hole in its stomach after an accident. After a few weeks on vet's therapy, it became worse. She then put the dog on the blanket and run several programs including infection, healing-and-regeneration, wound healing, etc. She said the dog was not at ease at first but soon realised something good was happening and was very happy to be on the blanket. When other dogs would come close, the dog would first chase them away. After the first week, the stomach hole was almost closed up and soon afterwards all was totally forgotten.

Our own cat was run-over by a vehicle. The cat's lower body was severely damaged and the vet suggested it would be a total waste to even try to recover the cat. Due to feelings and emotion from our family towards the poor animal, we decided to give it a chance. Surgery took place in order to stitch up damage to internal organs and a metal structure was bolted to the cat's broken spine. A few week's animal hospital observation was due. Due to internal damage, the cat could not urinate. The vet had to squeeze out the cat's urinary bladder few times each day. Soon we obtained permission to treat the cat with a RifeMedic device using an EM blanket with healing-and-regeneration programs. After just the first treatment the very next morning the vet phoned and enquired about what exactly we did we as the cat all of a sudden urinates by itself. The cat soon came home on strict doctor's orders to be extremely quiet for several weeks. We kept on treating her, and also applied Comfrey cream to the damaged areas. Very soon the cat could be found climbing up everywhere, even up onto the curtain pelmets. Nick named by the vet: miracle cat.

Body Function: Frequency Function

Enter the Body function.

Press the **Function** key until it displays “Frequency”.

In 2 seconds, the Frequency Function will display.

Press **Exit** to exit the frequency function.

Press **Clear** to set the frequency to 1 Hz.

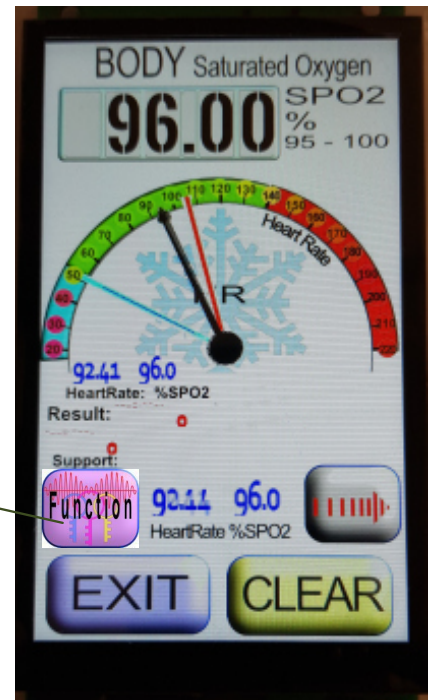

Adjust the frequency by pressing on the + or - buttons for each frequency segment.

Press on the Signal intensity **scale** or on the **Lower** or **Upper** buttons to adjust the signal intensity.

Please use your own discretion for using frequencies for extended times. See the **Frequency Effects page**.

The unit will generate the set up frequency for as long as the function is active.

Limitations of the function are the maximum frequency of 200 000.0 Hz and the accuracy on higher frequencies created by this function.

Body Function: Water Imprint Function

Healing Water: A specific **notion** can be imprinted on water. Please follow the provided instructions below for the best results. Water has a very strong oxygen and hydrogen atomic structure that as water, forms a pure water structure. In order to make the perfect structure of water susceptible to re-structuring (programming), we have to add only a few grains of salt to our clean water. Moving the water by means of stirring, helps to bring about re-structuring while the programming: Notion-energy, Frequency, Colour, Intention and Acceptance are applied. We have to use unpolluted water for this application.

See the **Water Imprint Notions page** for the list of pre-programmed healing notions.

The RifeMedic 8 offers many energy and frequency notions to re-structure in water. You have to bring about Your Intention, Your Acceptance, Your Notion of the programming structures. You can accomplish this by holding the water sample while it is being re-structured; you can think of, or say aloud what your intention or notion for the water is while being re-structured; You can show a photo to the water of yourself or for who it is intended while it is being re-structured; you can show a written word or sentence or symbol to the water while it is being re-structured; you can do all of the above at the same time - the water will gladly accept and imprint all of the different positive notions of healing exposed to it. A photo, word or symbol bares specific photonic information that imprints as a signature onto the water. When you consume this programmed water, all of the imprinted notions, signatures, and intentions will resonate with you, having the intended effect on you.

Prepare a water sample with clean water: A small glass of water. Add 3 grains of salt, select a Water Imprint notion on the RifeMedic 8, press Run, Press the Lock Screen function and turn the unit upside down, stir the water sample. Carefully place the water sample over the transducer disk. The white light erase process follows, then the colour and frequency imprint energies are applied. Also apply your intentions. Remove and use your imprinted water. You can store and use the water for many days.

Frequency Effects:

Every frequency has effects on the biological systems of the body.

As an example, below follows a few.

Frequencies marked as Comprehensive, have many different healing effects.

Extreme Comprehensive Frequencies have extra long lists of healing effects.

3	- Abdominal pain, Allergy, Arthritis, Backache, Insomnia, Knee pain
3.6	- Dog and cat hostility, Inflammation general
4	- Headaches, Healing and regeneration, Vertigo
6	- Alzheimers, Hypertension, Pesticide detox, Stiff muscles
7	- Healing and regeneration
9	- Lung, Menieres, Prostate problems
9.1	- Bruises, Cataract, Prostatitis
9.2	- Kidney insufficiency
9.3	- Backache
9.4	- Arthritis, Backache, Paresis
9.5	- Hyperparathyroidism
12	- Hypothyroid
15	- Dental and jawbone infections, Hypertension, Sciatica
15.2	- Nymphs detox
20	- Comprehensive healing frequency *****
23	- Sore throat
25	- Arthritis
40	- Stroke paralysis, Arthritis, Circulation, Edema, Fibromyalgia
40	- Kidney stimulation, Muscular pain, Wound healing
72	- Comprehensive healing frequency *****
95	- Comprehensive healing frequency *****
120	- Comprehensive healing frequency *****
125	- Comprehensive healing frequency *****
146	- Comprehensive healing frequency *****
304	- Comprehensive healing frequency *****
428	- Comprehensive healing frequency *****
440	- Comprehensive healing frequency *****
444	- Comprehensive healing frequency *****
465	- Comprehensive healing frequency *****
522	- Comprehensive healing frequency *****
600	- Comprehensive healing frequency *****
626	- Comprehensive healing frequency *****
650	- Comprehensive healing frequency *****
660	- Comprehensive healing frequency *****
676	- Comprehensive healing frequency *****

688	- Comprehensive healing frequency *****
690	- Comprehensive healing frequency *****
727	- extreme Comprehensive healing frequency *****
728	- extreme Comprehensive healing frequency *****
732	- Comprehensive healing frequency *****
776	- extreme Comprehensive healing frequency *****
787	- extreme Comprehensive healing frequency *****
800	- Comprehensive healing frequency *****
802	- extreme Comprehensive healing frequency *****
880	- extreme Comprehensive healing frequency *****
1550	- extreme Comprehensive healing frequency *****
1600	- Comprehensive healing frequency *****
1800	- Comprehensive healing frequency *****
1865	- Comprehensive healing frequency *****
2489	- Comprehensive healing frequency *****
2720	- extreme Comprehensive healing frequency *****
3000	- Comprehensive healing frequency *****
3176	- Comprehensive healing frequency *****
5000	- extreme Comprehensive healing frequency *****
10000	- extreme Comprehensive healing frequency *****

For a complete list of frequencies' effects, see the following web site:

FrequenciesandAnecdotes/FrequencyCrossReference.htm](https://www.electroherbalism.com/Bioelectronics/FrequenciesandAnecdotes/FrequencyCrossReference.htm)

Rifemedic 8 Electro-acu-pressure

Acu-pressure therapy is applied to stimulate specific body systems energy line nodes.

Electro-acu-pressure therapy adds an electric frequency energy factor to the already existing stimulation, making this special enhanced application both potent and aggressive. Therefore, risks associated with this therapy have to be well understood and precautions taken not to over-stimulate the body. It is therefore required that therapists should undergo intensive training in acu-pressure therapy.

Several 15-minute sessions may be applied each day on adults.

One or two 2-minute sessions may be applied each day on children and old people.

Good health care considerations and discussion is required for this therapy.

Do not apply electro-acu-pressure on, during or under the following cases or conditions:

- In acute or life threatening conditions, for example: heart failure, epilepsy.
- During pregnancy.
- Extreme fatigue.
- Up to two hours after eating.
- Up to an hour after a warm bath.
- On a wound, scar or damaged tissue.
- Up to two hours after taking any form of medicine.

In order to select Electro-Acu-pressure with the RifeMedic 8, prepare the instrument as for a normal rife session. Select the Body function and tap on the Functions button until it indicates Acupress.

Select a condition to be treated to see the list of acu-pressure points.

Select a stimulation frequency by tapping the frequency select button.

Select the required signal intensity via the intensity setting or adjust during the session.

The Client applies one signal to a hand or foot and the Therapist holds the other signal electrode. The therapist uses the same electrode-hand's index finger to apply acu-pressure. Acu-pressure points on the body may be wetted or conductive gel can be applied for improved contact.

If you apply Electro-Acu-pressure to yourself, apply one signal to your hand or foot. Hold the other signal electrode in a hand and apply the same hand's index finger to apply acu-pressure.

Apply normal acu-pressure principles for the session, including the use of conductive acu-pressure tools instead of a finger.

Abdominal pain: 5, 22, 25, 28, 81, 82, 83.

Acidity: 18, 22, 25, 35, 56.

Addiction alcohol: 5, 51, 56, 70, 74.

Addictions drug: 5, 35, 37, 51, 56, 74.

Addictions any: 3,35,51,56,74.

Allergy: 8, 22, 28, 30, 44.

Angina: 5, 34, 35, 56, 84, 94.

Ankle pain: 5,23,25,54,69.

Appendix acute: 5, 22, 25, 28, 83, 92.

Appetite loss: 11, 18, 22, 56.

Asthma attack: 2, 84, 85, 88.

Backache: 5, 25, 45, 46, 47, 48, 50.

Bed-wetting: 22, 28, 35, 48, 54, 78.

Blocked nose: 5, 11.

Blood-circulation arms: 4, 58, 89.

Blood-circulation brain: 4, 62, 65, 74, 84.

Blood-circulation feet: 4, 24, 53, 93.

Blood-circulation hands: 4, 58, 89.

Blood-circulation legs: 4, 24, 53, 93.

Blood pressure high: 4, 8, 22, 28, 70, 29, 54.

Blood pressure low: 4, 8, 22, 28, 70.

Breast problems: 5, 25, 28, 56, 84.

Breathlessness: 3, 56, 84, 88, 95.

Bronchitis: 2, 3, 4, 28, 84, 85.

Burning Urination: 5, 25, 28, 78.

Cardiac arrest: 34, 36, 56, 75.

Chest pain: 5, 34, 35, 56, 84, 94.

Chronic fatigue: 22, 28, 67, 81.

Colds: 5, 11, 13, 28.

Colitis: 5, 22, 25, 28.

Concentration improve: 35, 56, 65, 86.
Constipation: 5, 22, 28, 59, 83.
Convulsions: 35, 51, 53, 75.
Coronary artery disease: 4, 35, 56, 84.
Coughing: 2, 3, 4, 28, 84, 85.
Debility: 22, 28, 67, 81.
Diabetes: 10, 22, 26, 28, 66, 83.
Diarrhoea: 5, 7, 22, 27, 28, 81.
Dysentery: 5, 22, 28, 81.
Ear disorders: 5, 41, 54, 55, 61, 64.
Earache: 5, 41, 61, 63.
Elbow pain: 5, 8, 25, 32.
Enlarge breasts: 17, 28, 56, 66, 84.
Epilepsy: 35, 51, 53, 75.
Eye disorders: 5, 12, 42, 63, 68, 70, 86.
Facial beauty: 5, 10, 13, 14, 15, 40.
Fainting: 5, 8, 35, 53, 73, 75.
Fever sudden high: 5, 8, 22, 28, 35, 73.
Flatulence: 22, 28, 56, 70, 83.
Flu: 8, 22, 28, 73.
Foot pain: 5, 23, 25, 54, 69.
Frigidity: 19, 28, 72, 76.
Gall bladder colic: 5, 22, 25, 67.
Gall bladder disorders: 18, 22, 25.
Gall bladder pain: 18, 22, 25, 69.
Gastritis: 18, 22, 25, 35, 56.
General good health: 8, 22, 28, 70.
Grey hair: 5, 10, 13, 14, 15, 40.
Haemorrhoids: 5, 25, 28, 49, 76.
Hair loss: 3, 5, 35, 54, 74.

Headache: 5, 25, 62, 65.
Health improve: 8, 22, 28, 70.
Heart-attack: 5, 34, 35, 56, 84, 94.
Heart disease ischemic: 4, 35, 56, 84.
Heel pain: 5,25, 51.
Hiccups: 44, 56, 75, 85.
Hip pain: 5, 25, 47.
Impotence: 19, 28, 67, 72.
Influenza: 8, 22, 28, 73.
Itching: 1, 30.
Jaundice: 18, 22, 28, 70, 71, 83.
Kidney colic: 5, 22, 25, 28, 45, 55.
Kidney disorders: 28, 45, 54, 81.
Knee pain: 5, 21, .25, 48, 90, 91.
Leucorrhoea: 8, 22, 28, 76, 80.
Liver disorders: 18, 22, 28, 70, 71, 83.
Insomnia: 35, 51, 56, 86.
Memory improve: 35, 56, 65, 86.
Menopause: 4, 5, 25, 19, 28, 54, 79.
Menstrual problems: 4, 5, 25, 19, 28, 54, 79.
Mental Tension: 35, 51, 56, 74.
Migraine: 5, 25, 62, 65.
Milk deficiency: 8, 17, 28, 56.
Mouth disorders: 4, 5, 15, 28, 33, 40.
Nausea: 20, 22, 35, 56.
Neck pain: 3, 5, 25, 38, 73.
Nose disorders: 3, 5, 11, 14.
Nosebleed: 4, 5, 11.
Obesity: 35, 51, 56, 74.
Painless delivery: 5, 28, 35, 52, 67, 71.

Palpitations: 34, 35, 56, 84.

Paralysis: 22, 28, 49, 67.

Pharyngitis: 5, 10, 28, 56, 70, 84, 85.

Piles: 5, 25, 28, 49, 76.

Polio: 22, 28, 49, 67.

Prostatitis-Acu points: 22, 28, 76, 77.

Renal colic: 5, 22, 25, 28, 45, 55.

Sexual ability improve: 19, 28, 35, 70, 76, 77.

Sexual debility: 19, 28, 67, 72.

Shoulder pain: 5, 9, 25, 39, 60.

Sinusitis: 5, 13, 28, 65, 87.

Skin diseases: 1, 3, 28, 30.

Sleeplessness: 35, 51, 56, 86.

Smoking: 3, 35, 51, 56, 74.

Sore throat: 5, 10, 28, 56, 70, 84, 85.

Sunstroke: 5, 8, 35, 53, 73, 75.

Sweating: 8, 22, 28, 35.

Swelling: 29, 54, 80, 82.

Thyroid disorders: 5, 10, 56, 66, 85.

Tongue disorders: 4, 5, 15, 28, 33, 40.

Tonsillitis: 2, 3, 4, 5, 10, 28.

Toothache: 5, 16, 25, 40.

Ulcer peptic duodenum: 5, 22, 25, 38, 83.

Ulcer peptic small intestine: 5, 22, 25, 38, 83.

Ulcer peptic stomach: 5, 18, 22, 24, 25, 83.

Voice problems: 5, 10, 85.

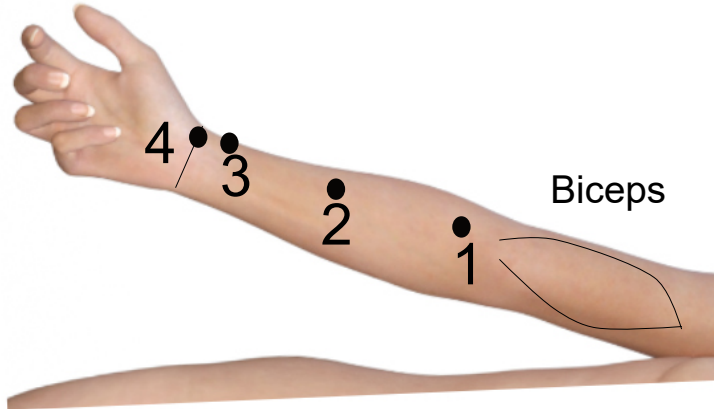

Vomiting: 20, 22, 35, 56.

Worms intestines: 22, 28, 31, 83.

Wrist joint pain: 5, 6, 25, 38, 57.

Youthfulness: 8, 28, 35, 70.

Lu - lung	Li - large intestine	St - stomach	Sp - spleen
H - heart	Si - small intestine	Ub - urinary bladder	K - kidney
P - Pericardium	Tw - tripple warmer	Gb - gall bladder	Liv - liver
Gv - governing vessel	Cv - conception vessel		

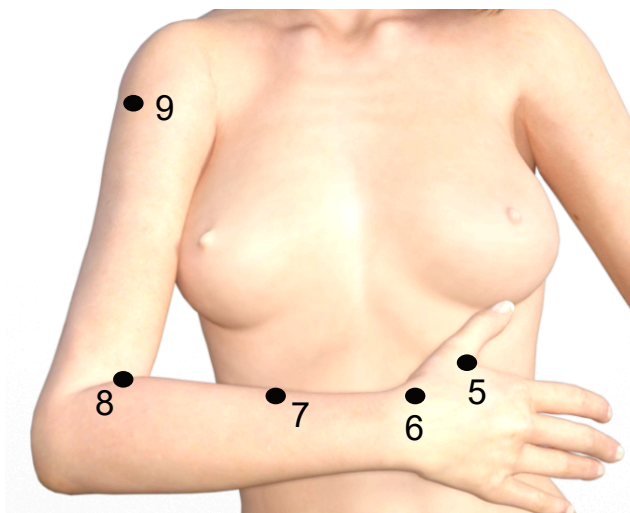

Point 1 (Lu-5) on the elbow-crease near the biceps muscle tendon

Point 2 (Lu-6) five thumb-widths below the elbow-crease

Point 3 (Lu-7) on the outer border of the forearm, two finger-widths above the wrist joint

Point 4 (Lu-9) at the outer end of the wrist-crease

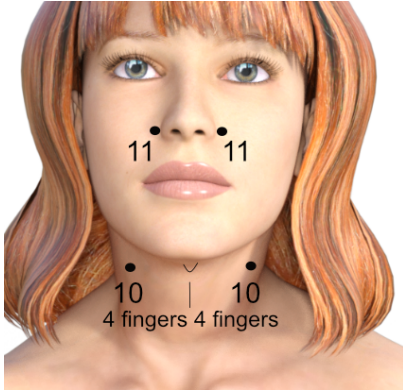

Point 5 (Li-4) flesh between the thumb and index finger.

Point 6 (Li-5) at the centre of this hollow at the outer aspect of the wrist joint

Point 7 (Li-7) five thumb-widths above the point 6

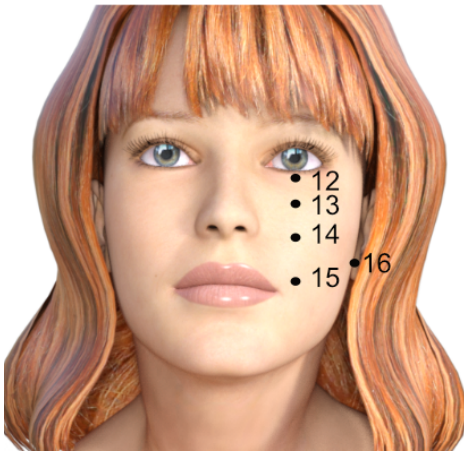

Point 8 (Li-11) at the outer end of the elbow crease

Point 9 (Li-15) at the centre of the groove seen and felt at the front of the shoulder

Point 10 (Li-18) four finger-widths away from the tip of the Adam's apple

Point 11 (Li-20) near the broad part of the nose

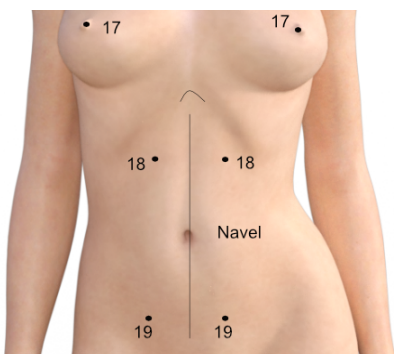

Point 12 (St-1) at the centre of a sharp bony margin beneath the eye

Point 13 (St-2) one finger-width below the point 12

Point 14 (St-3) vertically below the point 13

Point 15 (St-4) vertically below the point 14, in line with the corner of the mouth

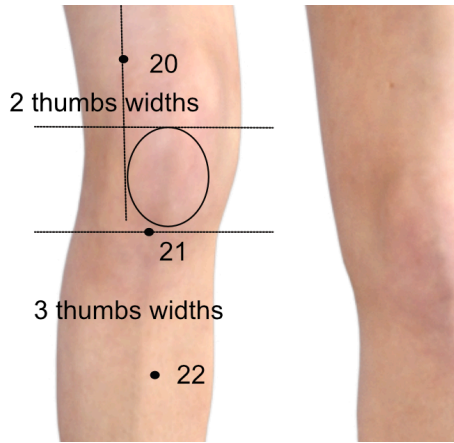

Point 16 (St-6) on the most prominent part of the muscle on the lower part of the cheek

Point 17 (St-17) at the centre of the nipple

Point 18 (St-21) four thumb-widths above the navel, two thumb-widths to the right or left

Point 19 (St-29) four thumb-widths below the navel, two thumb-widths to the right or left

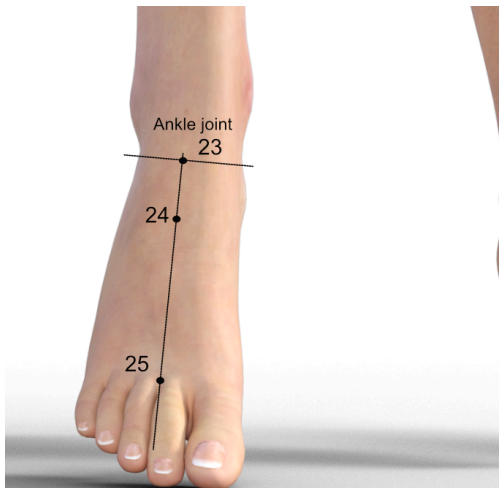

Point 20 (St-34) two thumbs above outer upper border of the knee-cap

Point 21 (St-35) below the knee-cap on the two depressions

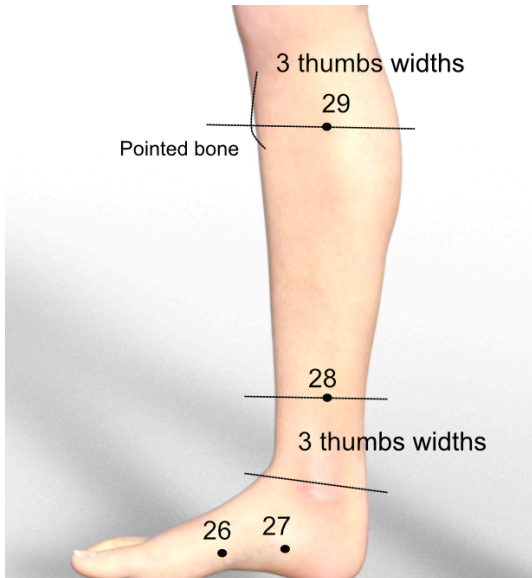

Point 22 (St-36) three thumb-widths below the knee-cap border, one finger-width to the outside

Point 23 (St-41) centre of the front surface of ankle joint

Point 24 (St-42) top of the foot, two thumb-widths in front of point 23

Point 25 (St-44) in the skin web between the second and the third toes

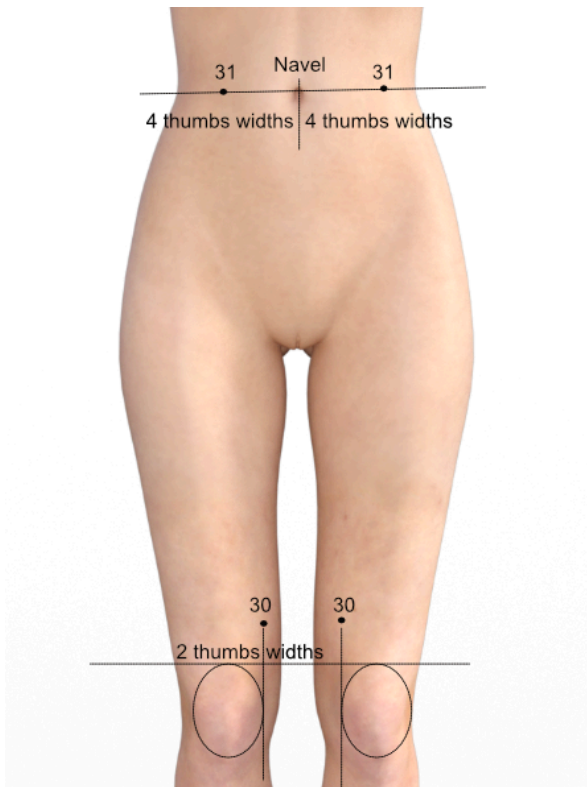

Point 26 (Sp-3) inner border of the foot after the base of the big toe, behind the prominent bone

Point 27 (Sp-4) at the centre of the inner border of the foot, in a notch between two bones

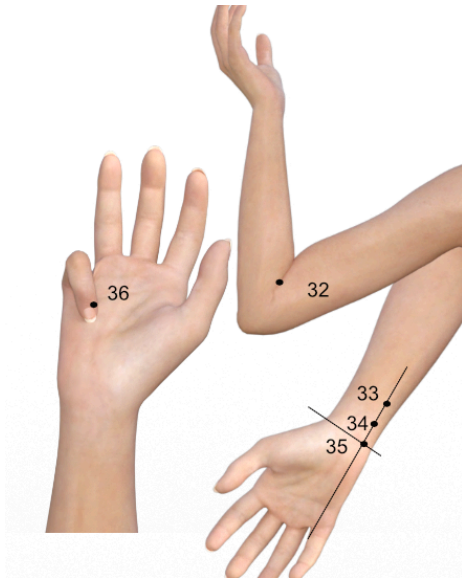

Point 28 (Sp-6) four finger-widths upwards from inner aspect of the ankle joint prominent bone

Point 29 (Sp-9) four fingerwidths downwards from lower border of knee-cap, behind the back-border of the leg-bone

Point 30 (Sp-10) two thumb-widths upward from the knee-cap border

Point 31 (Sp-15) four thumb-widths to the either side of the navel

Point 32 (H-3) on the inner surface of the elbow

Point 33 (H-5) one thumbwidth above the wrist-crease

Point 34 (H-6) half a thumb-width above the wrist-crease

Point 35 (H-7) on the wrist-crease

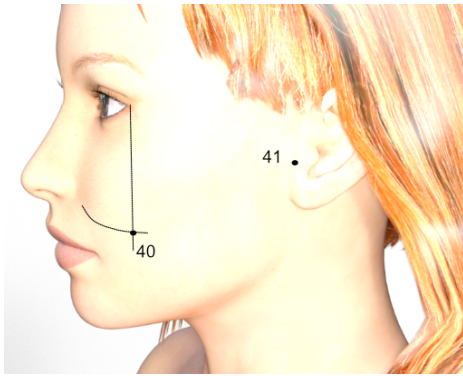

Point 36 (H-9) on the outer corner of the nail of the little finger

Point 37 (Si-3) on the inner border of the palm, one thumb-width above the base of the little finger

Point 38 (Si-6) on the wrist joint, in a shallow depression between the lower ends of the two forearm-bones

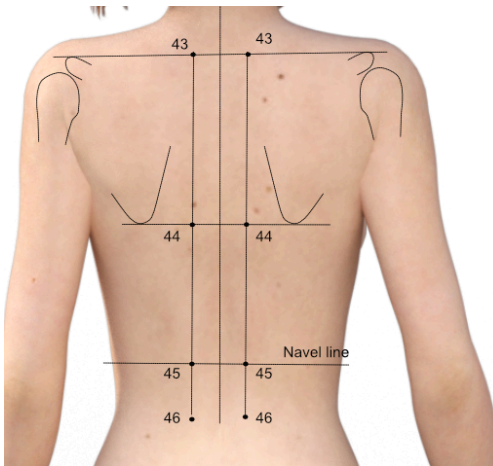

Point 39 (Si-9) on the back surface of the shoulder, one thumb-width above the end of the armpit-crease

Point 40 (Si-18) in line with the outer corner of the eye, just beneath the cheek-bone

Point 41 (Si-19) on the cheek, near the tragus at the centre of the ear

Point 42 (Ub-1) on the inner corner of the eye - not for EI-acu-pressure

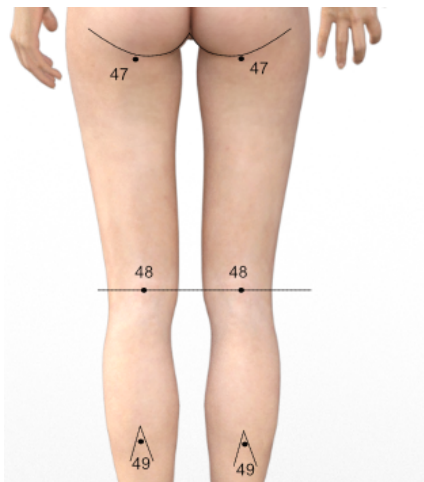

Point 43 (Ub-11) two finger-widths to either side of the lower prominent neck vertebra

Point 44 (Ub-17) WQ two finger-widths to the either side of the lower tips of the wing bones

Point 45 (Ub-23) two finger-widths to either side of the back centre in line with the navel

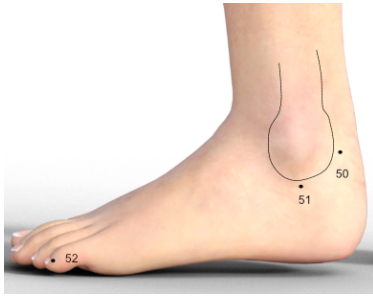

Point 46 (Ub-25) two thumb-widths below points 45

Point 47 (Ub-36) at the centre of the crease beneath the buttock

Point 48 (Ub-40) at the centre of the crease at the back of the knee-joint

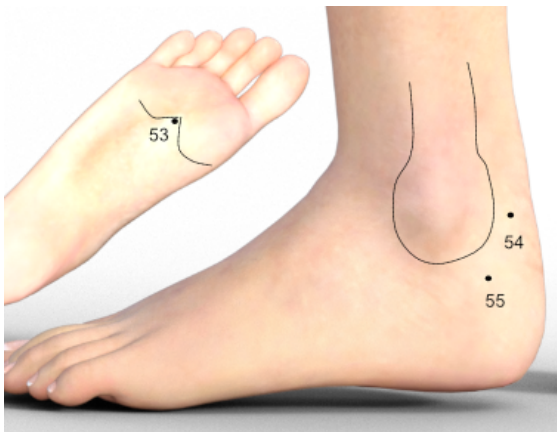

Point 49 (Ub-57) at the apex of the calf muscle groove

Point 50 (Ub-60) behind the lateral maleolus

Point 51 (Ub-62) below the lateral maleolus

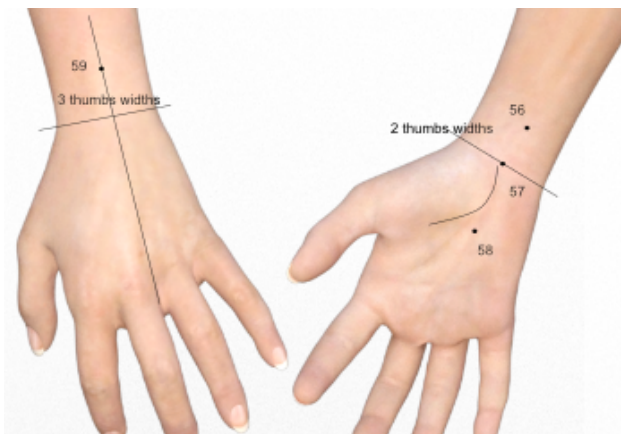

Point 52 (Ub-67) at the outer corner of the nail of the little toe

Point 53 (K-1) on the foot-sole between the two balls

Point 54 (K-3) midway between the tip of medial maleolus and the achilles tendon

Point 55 (K-5) one thumb-width below point 54

Point 56 (P-6) at the centre of the forearm, two thumb-widths above the wrist-crease

Point 57 (P-7) at the centre of the wrist-crease

Point 58 (P-8) at the centre of the palm

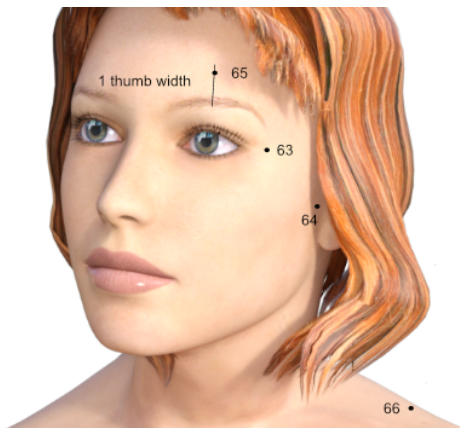

Point 59 (Tw-6) at the centre of the back surface of the forearm, four finger-widths above the wrist joint

Point 60 (Tw-14) in a shallow groove on the side of the shoulder, besides the pointed bone

Point 61 (Tw-21) on the cheek just above the point 41

Point 62 (Tw-23) at the outer tip of the eye-brow

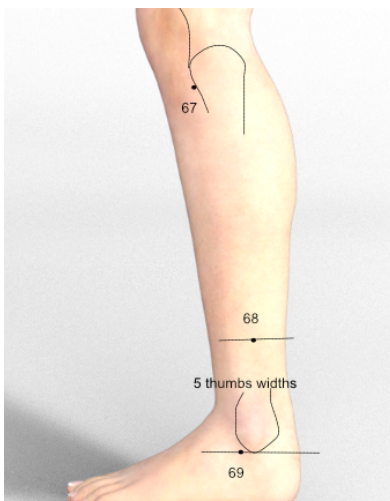

Point 63 (Gb-1) near the outer corner of the eye

Point 64 (Gb-2) very close to the ear, just below point 41

Point 65 (Gb-14) on the forehead, one thumb-width above the midpoint of eye-brow

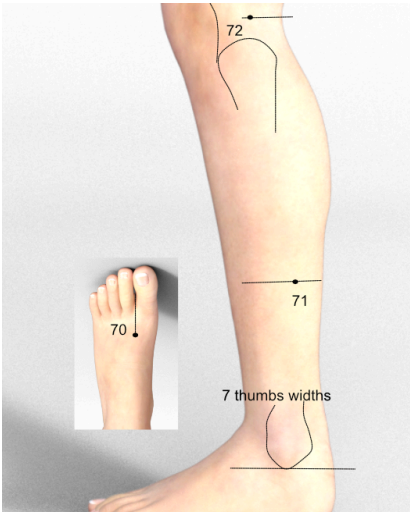

Point 66 (Gb-21) in a muscle, midway between the neck and the shoulder.

Point 67 (Gb-34) on the outer upper leg, in front of the neck of fibula

Point 68 (Gb-37) five thumb-widths above the tip of lateral maleolus

Point 69 (Gb-40) in a shallow depression just below the lateral maleolus

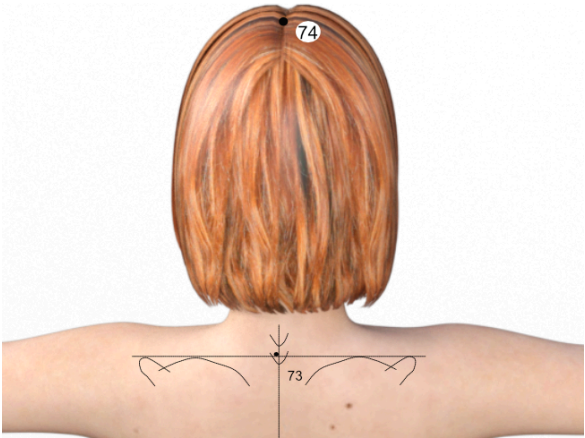

Point 70 (Liv-3) two thumb-widths behind the skin margin between the big and second toes

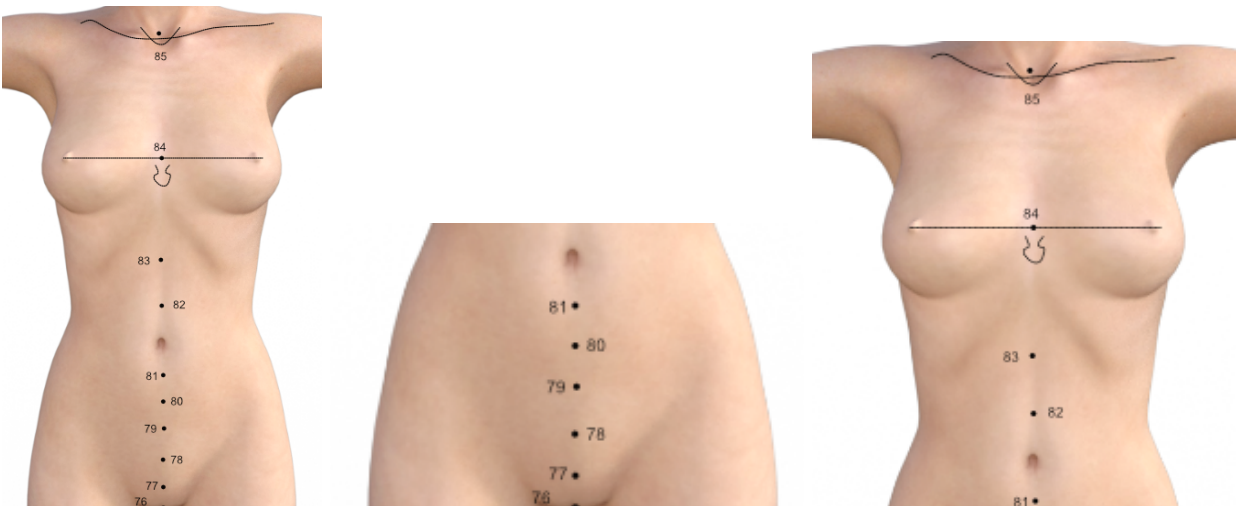

Point 71 (Liv-6) seven thumb-widths above the tip of medial maleolus

Point 72 (Liv-8) at the inner end of the crease behind the knee joint

Point 73 (Gv-14) between the two prominent vertebrae at the back of the neck

Point 74 (Gv-20) on the top of the head, at the centre in line with the lobes of the ears

Point 75 (Gv-26) at the centre of the upper lip

Point 76 (Cv-1) midway between the anus and the external genitals

Point 77 (Cv-2) five thumb-widths below the navel

Point 78 (Cv-3) four thumb-widths below the navel

Point 79 (Cv-4) three thumb-widths below the navel

Point 80 (Cv-5) two thumb-widths below the navel

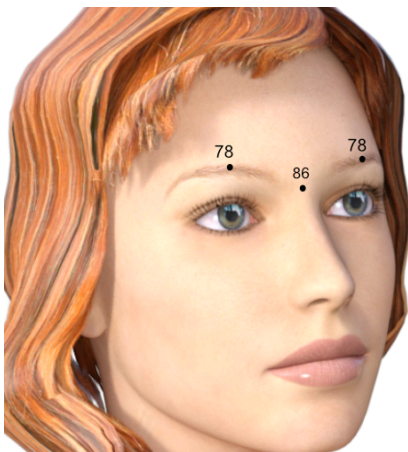

Point 81 (Cv-6) two finger-widths below the navel

Point 82 (Cv-9) one thumb-width above the navel

Point 83 (Cv-12) four thumb-widths above the navel

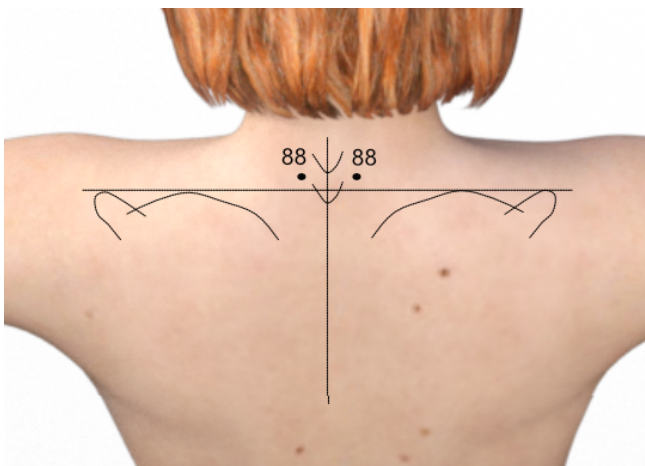

Point 84 (Cv-17) on the chest-bone, in line with the nipples

Point 85 (Cv-22) at the base of the throat, in a shallow depression just above the vertical chest-bone

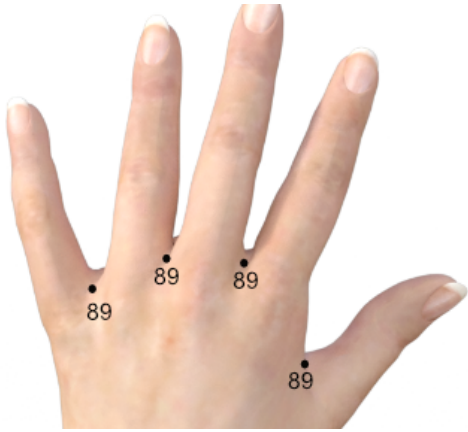

Point 86 (Ex-1) midway between the eye-brows

Point 87 (Ex-3) the centre of each eye-brow

Point 88 (Ex-17) half a thumb-width to either side of point 73

Point 89 (Ex-28) half a thumb-width from the skin margin between all fingers

Point 90 (Ex-31) at the centre of the upper border of the knee-cap

Point 91 (Ex-32) at the centre of the inner depression below the knee-cap

Point 92 (Ex-33) two thumb-widths below point 22

Point 93 (Ex-36) half a thumb width from the skin margin between the toes

Point 94 (Bipay) one thumb-width above the arm-pit

Point 95 (Ear Shenmen) between the two upper limbs of the v-shaped structure on the ear

Cables Check: If you do not feel Rife frequency sensation during an application when the frequency is below 5 kHz, it is possible that one of the cables is broken. This happens due to cable-bending at the same spot on the cable during use.

Test each cable by running a program on the rife machine. Turn up the intensity until the Output Leds just come on. Take each wire by its two ends and apply it briefly to the rife machine's two white terminals. The output leds will go dead when the cable is fine. If the leds do not go dead during touching, then the cable is off.

To repair your cable, push back each banana plug rubber hood. Turn loose the side screw for the wire to come loose.

Cut off about 2 cm from each side of the cable. Strip open 1 cm of the cable to reveal the cable screen as well as the inner core. Also strip open the inner core wire. Twist the inner core and screen together. Double fold the twisted wires and present it to the banana plug. Fasten the screw. Push back the hood.

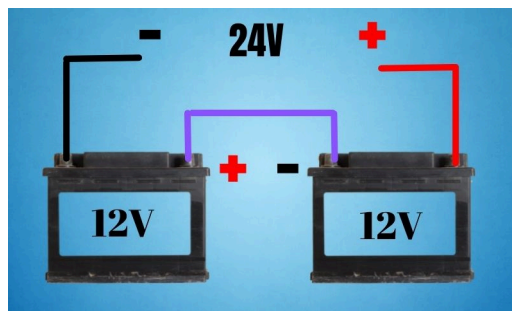

Making your own power pack:

You need: 2 x 12V batteries 3.5 Ah or 7 Ah "Sealed lead-acid" or "LiFePO4" type
1 x 2.1 mm DC Plug (Not 2.5 mm or any other size)
1 x 12V battery charger for the kind of battery you have.

Connect the two batteries in series to form 24V.

Connect a 2.1 mm DC Socket to the battery with the inner pin (Red) to the Positive side and the outer side (Black) to the Negative side.

When the RifeMedic 8 shows the voltage is 18V or lower, make turns to charge each battery. RifeMedic 8 Upgrade Rev. 5 and later indicates the DC Voltage on the screen.

Rife Protocols not listed in the User Manual up to Rev 4
